

STARLING

This distinctively charming two-story is a wonderful choice. The exterior shows a large front porch for entertaining or relaxing.

The first floor includes a large foyer, living room and a versatile kitchen layout which is accessible from the dining room, dinette and family room.

The second level includes two full baths. The master bath has two lavatories and for the family that needs storage, three walk-in closets.

NOTE: Floor plans and elevations subject to change. Elevations are artists' conceptions.
